PERSONAL PROJECTS

Mech War - (GAME) [↗](#)

- This game is a rip-off of Plants vs Zombies but in 3D version with Tanks & Robots.
- It has 20 fully developed Levels with different Enemies and Defenses.
- All of the Models, Rigs & Effects are made by myself.

Third Person Character Movement - (GAME) [↗](#)

- This is a TPS character movement demo.
- This includes Character Movement, Weapon Shooting, Weapon Changing & Pick Up System, IK & FK Animation Control, Humanoid Animation, Particle & Flare Effect.
- The Character Models, Rigs & Animations are taken from Mixamo.com.

DX Ball - (GAME) [↗](#)

- This is a well optimized finished game with complete 75 levels & 5 characters.
- It shows the use of Unity 2D Physics System.
- Also Unity Sprite & 2D particle System.
- Collectable items, unlockable characters & Rating system.

MovieQ - (Web App) [↗](#)

- A movie searching app that allows user to Search & Rate movies. Also Save them to Playlists.
- Used React & Materialize CSS for Frontend & React Context-API for State management.
- Node, Express, MongoDB for Backend & json web token for authentication.
- Used OMDb API for movies data.

Password Manager - (Web App) [↗](#)

- An web app for storing and managing user's password & secrets.
- Used React for Frontend & React Context-API for State management.
- Used Node, Express, MongoDB for Backend.

NewsRed - (Website) [↗](#)

- A Single page News Website Made using only HTML & CSS.
- The website is completely responsive and well optimized.
- This shows the proper use of css grid system.
